Dynamic

A new series featuring an unprecedented and elegant design, which brings together the understated allure of sophisticated styling with state-of-the-art technology.

With Linea, innovation comes together with tradition, thanks also to multiple patents registered to make it truly one of a kind.

Linea is the outcome of an in-depth research and development process.

PATENTED  
**VIMAR**

**Find out more about Linea and the pursuit of absolute, slim flatness.** A new design focused on total alignment between the product and the cover plate, with a sleek, light profile, perfect on any wall.

## Linea. Elegance and harmony for all styles.

Sophisticated design and uniquely shape control with a gently curved profile.

## Linea with XT platform. An innovative user experience.

Innovatively styled home automation system control for controlling lights, roller shutters, temperature management and scenario activation. Maximum simplicity of use and programming.

## Aligned controls

with patented *in-line* technology.

### > Controls that are always aligned.

Once activated, the button always returns to its original position ensuring perfect alignment of controls at all times.

> **Cover plate and control unit pleasant to the touch**, manufactured using special mould laser technology.

> **Distinctive, generously-proportioned button profile featuring a gentle curve** to make use even more intuitive. A soft protrusion that elegantly interrupts the flat continuity of the surface of the cover plate.

### > Light details.

The distinctive illuminated mark provided by the control backlighting makes it possible to identify its function even in the dark.

The control protrudes by just 2.7 mm

> **Maximum user-friendliness** of the control protrusion, meaning it can be easily operated as it is so easy to find with your fingers.

> Controls measuring **53 mm** in height.

53 mm

Sleek and slim cover plate measuring **just 5.7 mm in thickness** for all materials.

PATENTED  
**VIMAR**

- **In-line technology** that keeps the controls perfectly aligned, even after repeated use.

- **New control mechanism with** kinematic precision and silent operation at just a touch of your fingertips, with reduced control protrusion.

## Axial control

that is perfectly flat.

> **Absolutely flat effect.**

The axial control remains perfectly aligned with the surface of the cover plate, even after each use.

> **More generously-sized control surface.**

Thanks to the new patented mechanism, the control can be operated across the entire surface and requires minimum pressure.

> **Light details.**

The distinctive illuminated mark provided by the control backlighting makes it possible to identify its function even in the dark.

More space inside the mounting box

PATENTED  
**VIMAR**

- **New control mechanism with** kinematic precision and silent operation at just a touch of your fingertips and across the entire surface of the control.
- **More compact mechanism with reduced depth** to ensure there is more space inside the mounting box.

## All the backlighting possibilities

Various options for an elegant and distinctive effect at all times.

- Aligned, axial and traditional rocker controls feature a distinctive illuminated mark to identify their function, even in the dark.

### Standard mode

Aligned control and traditional rocker control.

### Standard mode

Axial control.

### Vertical light beam mode

Aligned control.

### • Vertical light beam.

For the aligned control, there is **also the** possibility of ordering a dedicated button to create a **vertical downward light beam**, choosing between a LED lighting unit with standard brightness or a softer one that creates a soft glow on the surface of the cover plate. The result is a discrete yet distinctive effect on the wall.

## Three different controls in three different colour variants.

PATENTED  
**VIMAR**

White

- **Pure, bright white**  
brings to mind simple, open spaces.

Canvas

- **The natural appeal of canvas for trendy settings.**  
A warm and natural hue.

Black

- **Black for bold details.**  
It draws its inspiration from mineral materials, for settings with a bold personality.

## Versatile controls, also with a single platform.

**Various types of Linea controls are available:** aligned, axial and traditional rocker controls already assembled and ready for installation or, to accommodate all installation requirements, a mechanism **which turns into an aligned or axial control with one simple gesture**, depending on the button used.

### > **Single mechanism.**

Compact and silent, 1-way switch, 2-way switch, reversing switch or push-button to be completed with the aligned or axial button. The choice is yours!

### > **Each device has its own backlighting.**

Whether it is a control or a mechanism to be completed with a button, they can both have backlighting thanks to a dedicated light source.

## View Wireless. Make your system connected.

Linea devices are **smart thanks to the integration of the View Wireless system**. To keep everything under control and manage lighting, roller shutters or motorised curtains, control energy consumption, temperature control and manage scenarios with the utmost simplicity using your **smartphone via App** or **directly by voice**. The ideal solution for refurbishments or to boost the functions of an existing system, it is also a useful means of support for the elderly and people with restricted mobility. Now with **smartphone** and **vocal control** you can **keep everything under control** up close and from a distance.

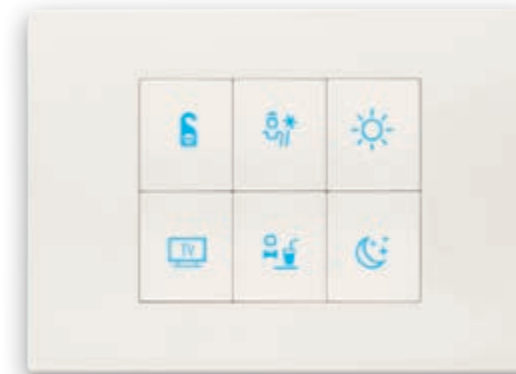

## Linea is also for home automation systems thanks to the By-me Plus system and the KNX standard.

**Linea connects domestic settings** with the needs of everyday life, whether large or small.

Comfort

Energy Efficiency

Security

- **Complete** and **connected, integrated** and expandable functions.
- **Centralised**, highly customised control.
- **Comfort**: sophisticated lighting and automation management.
- **Security**: Technical alarms, video door entry systems, burglar alarm systems, CCTV and access control.
- **Energy efficiency**: climate control, energy monitoring, smart lighting, energy control.

**By-me Plus** is the automation system which allows you to control lights, temperature, sound system, curtain and roller shutter automation, sprinkler system, energy management, multi-zone temperature and scenario control. Perfectly integrated with Vimar video door entry, burglar alarm and video surveillance systems, By-me Plus offers the utmost comfort, energy efficiency and superior safety in both home and office environments.

Flexible, interoperable and modular, **Well-contact Plus** is the Vimar system developed on the **KNX standard**, for complete building management. Whether in small or large hotels, offices, multi-purpose centres or even gyms, Well-contact Plus is the solution that provides constant control and management of lights, temperature, security, energy and accesses, providing functionality and comfort in every single environment.

# Connected Control.

Designed to control and manage lights, roller shutters, motorised curtains in the View Wireless system simply from your smartphone via App or using your voice directly. The ideal solution for refurbishments or to boost the functions of an existing system as well as in new system installations.

A 1 module, to be completed with interchangeable buttons.

Customisable LED colour in 8 colour variants and adjustable lighting from off to 3 brightness levels.

# Home Automation Control.

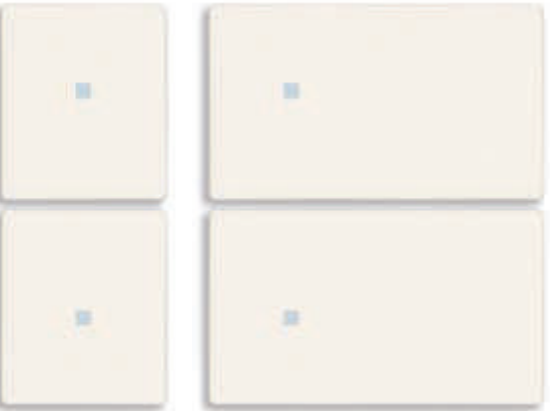

Linea controls are also available in the home automation system version for the By-me Plus system and the KNX standard. Curtain and roller shutter automation, light control, sound system and much more. Everything can also be managed in a centralised manner by creating scenarios.

Home automation system controls, 2 and 3 modules, to be completed with interchangeable buttons.

Customisable LED colour in colour variants with RGB palette and adjustable lighting from off to 3 brightness levels.

## Fast and easy installation.

The **slim support** is made of special materials with **high rigidity and strength**, also ideal for **mounting on plasterboard**. Devised to provide maximum grip once the device has been installed.

Installing Linea devices is traditional, quick and easy: they can easily be housed in mounting boxes for **masonry walls and plasterboard walls** ensuring maximum adherence to the wall thanks to the mounting frame compensation system.

### Installation on masonry walls.

### Installation on hollow walls (plasterboard).

## Innovative functions resulting from in-depth technological research.

For a **traditional electrical system**, more than **200 restyled functions** to achieve perfectly matching styling to choose from, offering superior performance levels and latest-generation user-friendly controls, so Linea facilitates everyday activities while optimising time and energy.

> We have flattened what wasn't flat before: **universal flush-fitting socket outlets** with a **patented recessed anti-jamming mechanism** which guarantees functionality at every use and for every type of plug.

> The **Linea line-up** is distinguished by **total installation versatility** in the most widely recognised international standards.

**PATENTED**  
**VIMAR**

- **Universal flush-fitting socket outlets** with a patented recessed anti-jamming mechanism which guarantees functionality at every use and for every type of plug.
- **Device terminals** have been specifically designed (in different shapes) for guided wiring. Earth terminal in socket outlets or significant terminal in controls (e.g. common on the 2-way switch) with square holes and relief dot for easier identification.

> **QUID - light and roller shutter control.**

For the centralised **control of lights and roller shutters** in traditional systems.  
Reliability, security and functionality.

- Innovative, silent relay for light control.
- Innovative electronic device for roller shutters.

> **Ringtone/buzzer.**

**Ringtone/buzzer** available at 230 V or 12/24 V.  
By turning the cover, you can switch from one function to the other thanks to a patented system.  
New product structure thanks to:

- depth reduced to just 35 mm;
- operating stability 50-60 Hz.

**PATENTED VIMAR**

- **Ringtone/buzzer switching.**  
By turning the device cover, the function changes from ringtone to buzzer and vice versa.

> **Emergency light.**

**Auxiliary emergency and controllable step marker lamp.**  
The new high efficiency LED lamp (100 - 240 V~ 50/60 Hz) has also been completely restyled to achieve a flat look and provide soft non-glaring lighting. This device is especially useful in the event of an emergency or power failure.  
It is fitted with a non-replaceable rechargeable lithium ion battery with a range of 2.5 hours. It can be turned on by an IR control or 1-way switch for operation as a step light.

> **Removable torch.**

**Removable hand lamp for auxiliary emergency and controllable step marker lamp.**  
Power outages won't mean being in the dark any more. Designed to achieve a flat look and provide soft non-glaring lighting, the removable hand lamp lights up immediately in the event of a power cut and it can be pulled out of the socket outlet. The lithium-ion battery guarantees a long product life. It can be turned on by an IR control or 1-way switch for operation as a step light.

> **Socket outlets with USB power supply units.**

**A comprehensive range of power supply units with USB socket outlets** in the following versions: 2.4 A A+C, 3 A C+C, C with a more powerful 30 W power supply unit and 3 A C integrated into P40 universal socket outlets. With their high-performing characteristics, and 30 W USB socket outlets, they offer Power Delivery fast charging of latest-generation devices with higher-performing batteries, such as smartphones, tablets and portable PCs.

## A range of carefully selected finishes, colours and materials.

**In-depth research** into interior design trends enabled Vimar to give rise to a balanced line-up of finishes and colours devised to accommodate the latest trends while anticipating future ones. Painstaking care taken with the choice of materials for the cover plates, particularly for the zinc-titanium alloy cover plates to achieve PVD finishes with prestigious, eco-sustainable metallic effects.

**An array of gentle, elegant** hues and subtle contrasts for any setting.

Shades of white, the natural appeal of canvas and the striking simplicity of black to design trendy, modern settings packed with personality.

## Total Look

Impeccable coordination for an identity that stands out every time. Pure, bright white brings to mind simple, open spaces; canvas is a warm and natural hue while black draws its inspiration from mineral materials, for settings with a bold personality.

### Highly customisable controls and cover plates to enhance the value of the project identity.

An extensive range of symbols are available, ideal for enhancing the value of accommodation facility designs in particular. Words and symbols are impeccably associated with cover plates and controls for a long-lasting result and an enhanced experience.

- > **A distinctive illuminated mark** to identify the control in the dark. New LED in direct contact with the surface of the button.

- The control switches can be painted in the same colour as the painted technopolymer cover plates: silver, clay and metal, for a total look effect.
- Take the opportunity to combine the module controls to expand the solutions to satisfy specific needs.

**Dynamic with the XT platform**  
EXperience Ttechnology.

> Makes your home naturally smarter.

## User-friendly and dynamic.

### > **Absolute flatness of controls.**

Innovative styling of the home automation system controls, extreme ease of use and ergonomic design across the entire surface.

### > **Sensitive precision and delightful to touch.**

> **Innovative styling** with controls across the entire surface and proximity sensor to activate the device simply by tapping it; understated, flat design and extremely user-friendly.

> **Perfectly matching** styling between digital and electromechanical products.

## Innovative, multi-functional ergonomics.

### > **Modular and scalable to suit any need.**

The devices in the XT platform are scalable in time and extremely easy to use: from a simple control for lights and roller shutters, to temperature management, air quality and even the activation of scenarios to a home automation system that is always up-to-date and functional.

### > **The dynamism of increasing functions** on the same control device is an advantage both during the installation phase and in renovations, and this is without masonry work.

### > **Thanks to the proximity sensor,** the devices are activated as soon as they are touched

# Extremely simple installation and module replacement.

The **slim support** is made of special materials with **high rigidity and strength**, also ideal for **mounting on plasterboard**. Devised to provide maximum grip once the device has been installed.

Possibility of housing between 2 and 4 modules in which 1 power supply node must be inserted and between 1 actuator node and 3 actuators for lights and roller shutters can be inserted.

## Installation on masonry walls.

## Installation on hollow walls (plasterboard).

## Modular and expandable.

The XT platform is characterised by extensive scalability and expandability of controls. With a simple gesture, you can move the front to other control devices, without any wiring.

### > Modular infrastructure:

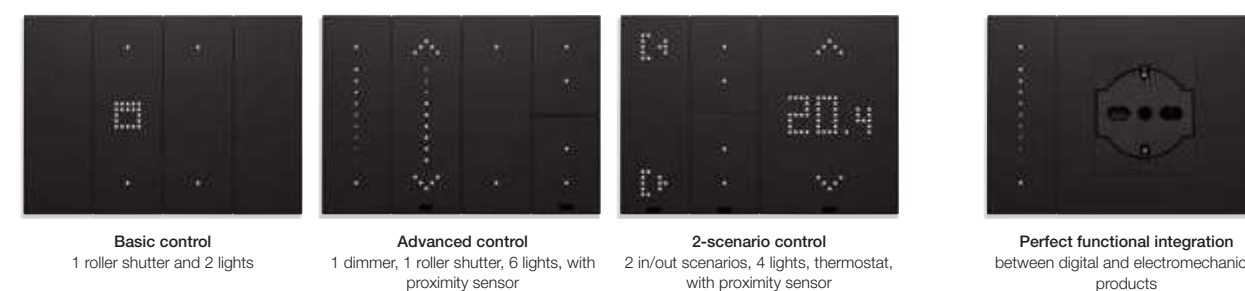

- For 2-3-4 module mounting boxes.
- Interchangeable front controls with 2 or 4 presses/functions
- Possibility of 4 front controls on the 3-module mounting box (up to 16 activations).
- Double relay actuators (up to 4 loads per 3-module mounting box) hooking onto the back of the mounting frame and supplied via an innovative connection system.

### > Many possibilities with the XT platform:

- Controls and thermostat and multisensor with air and humidity quality.
- Expansion and relocation of functions by simply swapping modules without dismantling the lighting device (also post-installation benefits).
- Matching styling between control devices and socket outlets.

Choosing between the **different types of controls** with the available XT platforms, you can easily compose and **configure** the 1-way switch ready for your needs.

## Identity for your project.

**To enhance each project, controls can be customised with a wide range of symbols to identify the function.** The control symbols, text and pictograms can be customised in two ways: with laser-engraved graphic icons and with dynamic LED icons, for an efficient, immediate and user-friendly user experience.

> **Completely customisable** graphic icons with an extensive library of symbols.

> **Dynamic, customisable LED icons using the App.** Possibility of smart backlighting: white at various brightness levels. No symbol visible when the device is off.

Linea is designed to be sustainable.  
Our commitment to the future.

Eco-packaging

All Linea packaging is fully recyclable. Product cases, enclosures and boxes are made of recycled cardboard or card, printed with water-based ink. The paper used is FSC certified, which guarantees it is sourced from responsibly managed forests. Some packaging is designed specifically with knockouts to speed up opening. Moreover, devices sold in multiple 5-piece packs, such as controls and socket outlets, can be separated into separate product cases or opened simultaneously by tearing off the bottom.

Finishing process for PVD (Physical Vapour Deposition) metal cover plates

Painstaking care taken with the choice of materials, including zinc-titanium alloy cover plates to achieve PVD finishes with prestigious, eco-sustainable metallic effects. One of the Linea series' many patents. The painting process only uses water-based or UV-reticulating paints for an extremely low solvent emission into the atmosphere.

The brand for renewable energy.

For the supervision and analysis of energy consumption levels in our plants, we have adopted the logic of smart metering. Our new logistics and production pole has been fitted with an open-circuit geothermal system, 3000 square metres of biodynamic cement panels, while the roof of the building has been planted with Sedum green affording greater thermal insulation and covered with 2,442 photovoltaic modules. These design choices show sustainability, architectural value and occupational comfort expressed to the full.

Products assessed according to the LCA approach

We assess the environmental performance of Vimar's high-turnover products according to the LCA (Life Cycle Assessment) approach, with respect to the international reference standards ISO 14040 and 14044.

PEP ecopassport®, we certify the results by obtaining the related EPDs (Environmental Product Declarations).

We design to be integrated with other players.

Products and green building rating systems: we create products that can contribute to the score of the most popular building sustainability protocols, such as LEED®, BREEAM®.

**Mechanism.**  
A unique patented mechanism for aligned and axial buttons allows you to choose between aligned or axial ergonomics simply by changing the button.

**Interchangeable buttons.**  
Aligned or axial with backlighting and customisable symbols.

**Cover plates.**  
With a minimum thickness of just 5.7 mm, in a wide range of colours and different materials.

**LED lamps.**  
For backlighting and visibility of the control even in the dark.

**Mounting frame.**  
With high mechanical rigidity, made of reinforced polyamide. Also ideal for installation on plasterboard, since the fins in the mounting box compensate for the thickness.

Other devices

**Half blank modules** to allow central installation of a 2 module device.

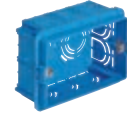

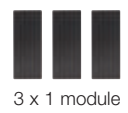

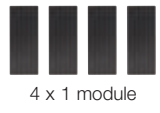

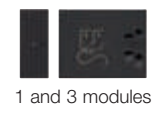

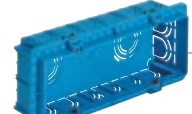

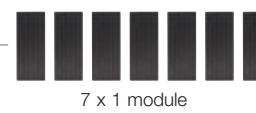

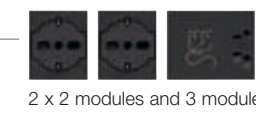

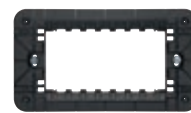

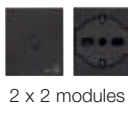

**Dial thermostat**, 2 modules, installed in the centre.

**Socket outlet with SICURY shutter.**

**PATENTED VIMAR**

**Flush-fitting socket outlet.**  
P40 universal socket outlets with SICURY protective shutter. The flush-fitting well of the cover plate slides inside the socket outlet when the plug is inserted. What's more, it is fitted with a patented mechanism that ensure seamless shifting of the well when the plug is pulled out.

**Installation on the back.**  
The power supply node of the devices and actuators should be installed on the back of the mounting frame.

**Dedicated mounting frame for white and canvas finishes.**  
The edge of the mounting frame is the same colour as the cover plate and module, for perfectly matching styling.

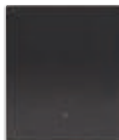

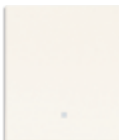

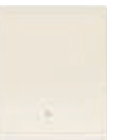

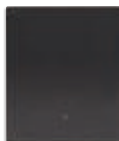

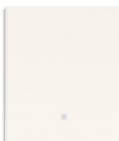

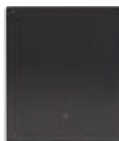

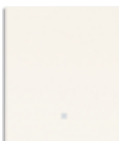

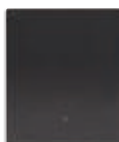

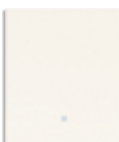

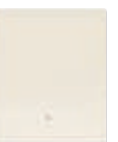

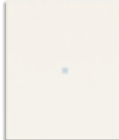

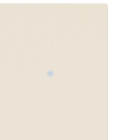

**Mounting frame with cover plate.**  
With high mechanical rigidity, the mounting frame complete with cover plate makes it possible to combine Linea devices with XT platform and Linea devices such as a socket outlet, for instance.

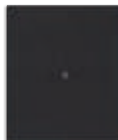

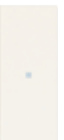

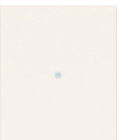

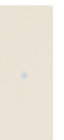

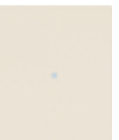

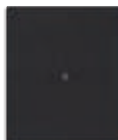

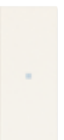

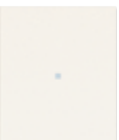

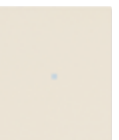

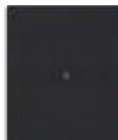

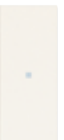

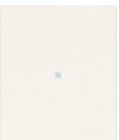

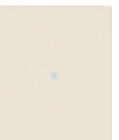

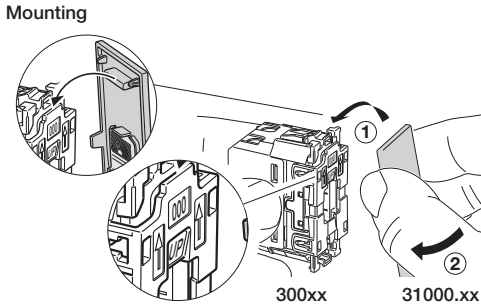

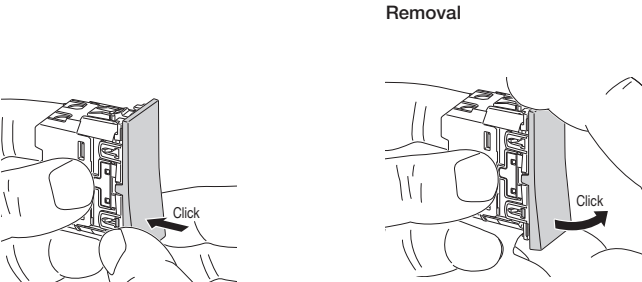

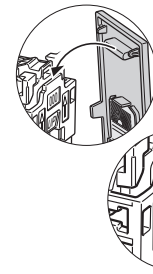

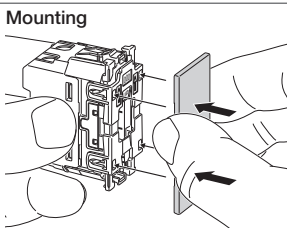

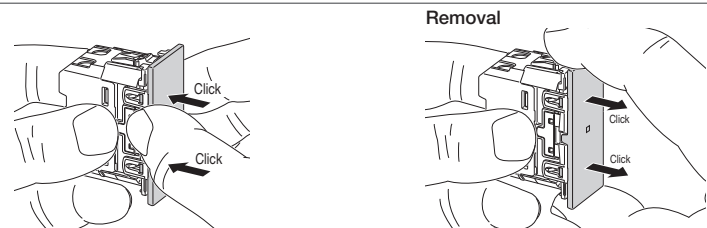

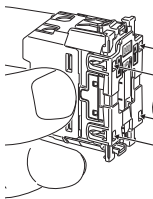

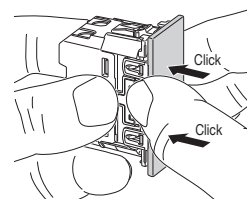

**Socket outlet with SICURY shutter.**

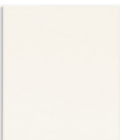

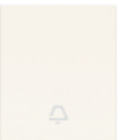

**Customisation.**  
Using dynamic LED icons or applying a label with the symbols chosen from a wide library.

Cover plate and controls customisation

How to customise cover plates and controls

- if the customisation requested is listed in the table ‘**Standard symbols and words library**’, indicate the article code + symbol/ word code, **if the customisation is not included in the table, contact the Vimar sales department for feasibility**;
  - for requests for large quantities of customisations not included in the “**Standard symbols and words library**” please contact the Vimar sales department.
- The advantages of laser-engraved customisations**
- precise, indelible and permanent reproduction and engraving;
  - service available even for minimum quantities;
  - possibility of re-ordering the same customisation at different times with identical results.

- Limits of reproduction**
- colour subjects cannot be reproduced.
- What to provide**
- a digital image of the subject in EPS or DXF format, with a minimum thickness of the line and gap between lines of 0.5 mm.
- What to do**
- provide all the material to your local wholesaler or distributor, who will forward it to Vimar.

Specifications for customising home automation system control buttons with words			
To be backlit, customisation with words not included in the ‘ <b>Standard symbols and words library</b> ’ must have no more than 3 text rows, each with a maximum of 8 capital letters, font height 1.7 mm and style as per the library. Depending on the length of the text, the words must be positioned as shown in the figures to the side.	Text on 1 row	Text on 2 rows	Text on 3 rows

Customisation of Linea controls with XT platform

Linea controls with XT platform can be customised in **two ways**: using dynamic, **customisable LED icons** which can be customised using the App or by **applying a label** of the chosen symbol directly onto the back of the button in black finish, after removing it from its control, whereas for controls in white and canvas finish, contact the sales network.

**Completely customisable symbols** from a large library, via the application of a label onto the back of the button in black finish (art. code P32090.PG, each sheet contains 24 symbols to choose from). Indicate the quantity and code of the symbol in your order (see the "Standard symbols and words library" on the following pages). For white and canvas finishes, contact our sales network.

**Dynamic, customisable LED icons via App.** Possibility of smart backlighting: white at various brightness levels. No symbol is visible when the device is off.

Smart card customisation

The card can be customised upon request at the back. Send a digital image of the subject to reproduce in eps, tiff or jpg format.

Bluetooth network name customisation

The name of the Bluetooth network can be customised for the Bluetooth interface (30495) of the Sound system.

- What to provide**
- annex a file with extension .txt to the order
  - the name of the .txt file must be created as follows:  
e.g. **P30495\_6.txt**  
P30495: required product code preceded by P;  
'6' the number of rows in the .txt file = quantity of the required product code;

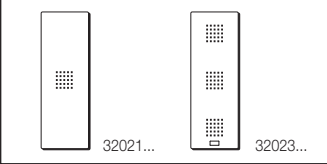

- Format of the .txt file**
- use standard ASCII European characters;
  - name of the network to be customised, max 23 characters (including spaces);
  - the text on a new line identifies the end of the string to be customised;
  - the number of rows must correspond to the quantity of the required article code;
  - each row must indicate the requested customisation, even when repeated;
