Metalis razvodni ormari
Metalis distribution boxes

1.1. Metalis razvodni ormari

Metalis distribution boxes

- metalna vrata i okvir, bijele boje RAL 9003
 - sukladno normi IEC 60670-1 i IEC 60670-24
 - područje ugradnje: podžbukna ugradnja u zid od opeke i šuplje stjenke
 - nazivna struja: za uređaje do 63A
 - 400V~, razred II
- PRILOŽENA OPREMA**
- nosači osigurača
 - izolirani konektori za vod za uzemljenje/neutralni vod, zadovoljavaju test užarenom niti na 960 °C
 - pribor za instalaciju u zid od opeke/šuplje stjenke
 - slijepi poklopci
- MOGUĆNOSTI**
- ugradnja libele, ugradnja bravice sa ključem, izmjena smjera otvaranja vrata na lijevo ili desno, bez demontaže okvira, horizontalno vezivanje dva ili više ormara korištenjem veznih elemenata RB80

- metal door and frame, white color RAL 9003
- in accordance with IEC 60670-1 and IEC 60670-24
- installation: In wall - brick and hollow walls
- rated current: up to 63A
- 400V~, class II

ACCESSORIES

- DIN rail for circuit breakers
- insulated connectors for earthing/neutral, suitable to glow wire test of 960 °C
- brick/hollow wall mounting distribution box carrier set
- blank

POSSIBILITIES

- installation of level, installation of lock with key, change of direction of opening door to left or right side, without dismantling the frame, horizontal connection of two or more distribution boxes using the RB80 connecting elements

1.2. Metalis razvodni ormari za multimediju

Metalis distribution boxes for multimedia

- metalna perforirana vrata i okvir, bijele boje RAL 9003
- sukladno normi IEC 60670-1 i IEC 60670-24
- područje ugradnje: podžbukna ugradnja u zid od opeke i šuplje stjenke
- nazivna struja: za uređaje do 63A
- 400V~, razred II

PRILOŽENA OPREMA

- nosači osigurača
- Patch Panel 12 M, keystone standard pričvršćivanja
- mrežasta montažna ploča Metalis ormara za multimediju
- nosač modema
- nosač 2M
- izolirani konektori za vod za uzemljenje/neutralni vod
- pribor za instalaciju u zid od opeke/šuplje stjenke

MOGUĆNOSTI

- ugradnja libele, ugradnja bravice sa ključem, ugradnja dodatnog nosača modema, izmjena smjera otvaranja vrata na lijevo ili desno, bez demontaže okvira, ugradnja Modul programa na nosač 2M ili korištenjem adaptera RB10, RB11, ugradnja komunikacijskih modula korištenjem Modul komunikacijski adaptera, ugradnja modularnih elemenata za Multimediju korištenjem Patch Panela, horizontalno vezivanje dva ili više ormara korištenjem veznih elemenata RB80

- metal perforated door and frame, white color RAL 9003*
- in accordance with IEC 60670-1 and IEC 60670-24*
- installation: In wall - brick walls and hollow walls*
- rated current: up to 63A*
- 400V~, class II*

ACCESSORIES

- DIN rail for circuit breakers*
- Patch Panel 12 M, keystone fixing standard*
- mounting plate for distribution box for multimedia*
- modem carrier*
- mounting frame 2M*
- insulated connectors for earthing/neutral*
- brick/hollow wall mounting distribution box carrier set*

POSSIBILITIES

- installation of level, installation of lock with key, installation of another modem carrier, change of direction of opening door to left or right side, without dismantling the frame, installation of Modul program on a 2M carrier or using the RB10, RB11, installation of communication modules using Modul communication adapters, installation of modular elements for multimedia by using Patch Panel change of direction, horizontal connection of two or more distribution boxes using the RB80 connecting elements*

Fine distribution boxes for low voltage power

2.3. Fine razvodni ormari za slabu struju

Fine distribution boxes for low voltage power

- plastična vrata i okvir
- bijela boja vrata RAL 9003 ili prozirna vrata
- područje ugradnje: podžbukna ugradnja u zid od opeke
- sukladno normi IEC 60670-1 i IEC 60670-24
- nazivna struja: za uređaje do 63A
- 400V~, razred II

PRILOŽENA OPREMA

- pribor za instalaciju u zid od opeke

MOGUĆNOSTI

- ugradnja nosača osigurača, ugradnja Patch Panela, keystone standard pričvršćivanja, ugradnja mrežastih montažnih ploča ormara za multimediju, ugradnja nosača modema, ugradnja izoliranog konektora za vod za uzemljenje i neutralni vod, ugradnja libele, ugradnja Modul programa na nosač 2M ili korištenjem adaptera RB10, RB11, ugradnja komunikacijskih modula korištenjem Modul komunikacijski adaptera, ugradnja modularnih elemenata za Multimediju korištenjem Patch Panela, izmjena smjera otvaranja vrata na lijevo ili desno, bez demontaže okvira

- *plastic door and frame*
- *white color RAL 9003 or transparent door*
- *installation: In wall - brick walls*
- *in accordance with IEC 60670-1 and IEC 60670-24*
- *rated current: up to 63A*
- *400V~, class II*

ACCESSORIES

- *brick wall mounting distribution box carrier set*

POSSIBILITIES

- *installation of DIN rail for circuit breakers, installation of Patch Panel, keystone fixing standard, installation of mounting plate for distribution box for multimedia, installation of modem carrier, installation of insulated connectors for earthing, installation of lever, installation of Modul program on a mounting frame 2M or using the adapter RB10, RB11, installation of communication modules using Modul communication adapters, installation of modular elements by using Patch Panel, change of direction of opening door to left or right side, without dismantling the frame*

Tower razvodni ormari
Tower distribution boxes

3.1. Tower razvodni ormari

Tower distribution boxes

- plastična vrata i kućište ormara
- bijela boja vrata RAL 9003 ili prozirna vrata
- područje ugradnje: nadžbukna ugradnja
- sukladno normi IEC 60670-1 i IEC 60670-24
- nazivna struja: za uređaje do 63A
- 400V~, razred II

PRILožENA OPREMA

- nosači osigurača
- izolirani konektori za vod za uzemljenje/neutralni vod, zadovoljavaju test užarenom niti na 960 °C
- slijepi poklopci
- poklopci za zaštitu od prašine

MOGUĆNOSTI

- ugradnja bravice sa ključem, ugradnja Modul opreme, korištenjem adaptera RB10 i RB11, izmjena smjera otvaranja vrata na lijevo ili desno, bez demontaže okvira

- plastic door and base
- white color RAL 9003 or transparent door
- installation: On wall
- in accordance with IEC 60670-1 and IEC 60670-24
- rated current: up to 63A
- 400V~, class II

ACCESSORIES

- DIN rail for circuit breakers
- insulated connectors for earthing/neutral, suitable to glow wire test of 960 °C
- blank
- dust protection

POSSIBILITIES

- installation of lock with key, installation of Modul program by using adapters RB10 and RB11, change of direction of opening door to left or right side, without dismantling the frame

4.1. Eco razvodni ormari

Eco distribution boxes

- plastična vrata i okvir
- bijela boja vrata RAL 9003 ili prozirna vrata
- područje ugradnje: podžbukna ugradnja u zid od opeke
- sukladno normi IEC 60670-1 i IEC 60670-24
- nazivna struja: za uređaje do 63A
- 400V~, razred II

PRILOŽENA OPREMA

- nosači osigurača
- izolirani konektori za vod za uzemljenje/neutralni vod, zadovoljavaju test užarenom niti na 960 °C
- pribor za instalaciju u zid od opeke
- slijepi poklopci

MOGUĆNOSTI

- ugradnja bravice s ključem, ugradnja Modul programa, korištenjem adaptera RB10 i RB11, izmjena smjera otvaranja vrata na lijevo ili desno, bez demontaže okvira, horizontalno i vertikalno vezivanje dva ili više ormara korištenjem veznih elemenata RB80

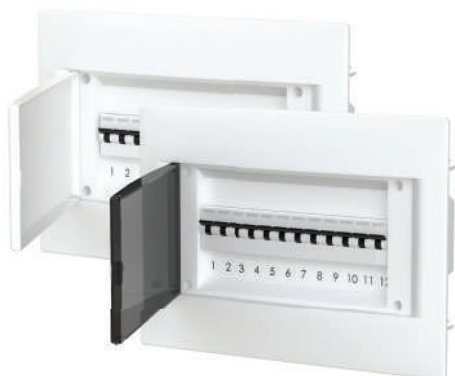

- *plastic door and frame*
- *white color RAL 9003 or transparent door*
- *installation: In wall - brick walls*
- *in accordance with EN 60670-1 i IEC 60670-24*
- *Rated current: up to 63A*
- *400V~, class II*

ACCESSORIES

- *DIN rail for circuit breakers*
- *insulated connectors for earthing/neutral, suitable to glow wire test of 960 °C*
- *brick wall mounting distribution box carrier set*
- *blank*

POSSIBILITIES

- *installation of lock with key, installation of Modul program by using adapters RB10 and RB11, change of direction of opening door to left or right side, without dismantling the frame, horizontal and vertical connection of two or more distribution boxes using the RB80 connecting elements*

DOMINO

Domino razvodni ormari
Domino distribution boxes

5.1. Domino razvodni ormari

Domino distribution boxes

- plastična vrata i kućište ormara
- područje ugradnje: nažbukna ugradnja
- prozirna/zadimljena plastična vrata
- sukladno normi CEI 23-48 - I Ed. 1998 i CEI 23-49:1996 + V1:2001 + V2:2003
- nazivna struja: za uređaje do 63A
- 400V~
- IP66

PRILOŽENA OPREMA

- nosači osigurača
- baglame za tijelo i prednji dio ormara
- pribor za instalaciju na zid
- slijepi poklopci

MOGUĆNOSTI

- modularnost/ moguće kombiniranje ormara DOMINO međusobno, pomoću uvodnica, ugradnja bravice sa ključem ili trokutasti plastični ključ, ugradnja Modul opreme, korištenjem adaptera RB10 i RB11

- *plastic door and base*
- *installation: on wall*
- *transparent/smoky plastic door*
- *in accordance with CEI 23-48 - I Ed. 1998 and CEI 23-49:1996 + V1:2001 + V2:2003*
- *rated current: up to 63A*
- *400V~*
- *IP66*

ACCESSORIES

- *DIN rail for circuit breakers*
- *hinge for body and front part of distribution box*
- *accessories for on wall installation*
- *blanks*

POSSIBILITIES

- *modularity - combining distribution box DOMINO mutually, installation of lock with key or triangular plastic key, installation of Modul program, by using adapters RB10 and RB11*
