TOPSELLER CATALOGUE

Wiha – Tools that work for you

- 80 years of German family tradition
- Wiha Quality for professional customers around the world
- Manufacturer of highest quality hand tools and solutions ensuring the success of users and trade partners
- Numerous national and international awards prove the company's claim to leadership in the industry.

Wiha – Top products for your success

What distinguishes good hand tools? One thing above all: their ability to make your job noticeably easier.

If they also protect your health, ensure your safety and meet the highest quality standards for a sustainable, long lifespan, we call them outstanding – or in short: Wiha hand tools.

We present to you our TOP sellers 2023 that have proven to be the best of the best in criteria such as user benefits, application options and flexibility, demand, potential for individual further development, level of innovation, or customer feedback. Use our products to guarantee your success – now!

The complete and comprehensive range of Wiha products can be found at www.wiha.com or in the digital catalog of Wiha (www.wiha.com/digicat).

Wiha - A company and its people. Today and in the future.

How do we define corporate success? We focus just as much on sustainable corporate and organizational development as we do on individual development, freedom, and further development of our employees, customers, and partners. At home in the heart of the Black Forest, the responsible dealing with nature comes naturally to Wiha. We consciously place this aim above the maximization of sales and profits.

Our corporate culture and all organizational processes and aims are founded on the central values of responsibility, respect, and integrity.

Wiha as a partner for the future

- **Promotion of employees**

We support them in their further development and create best working conditions.

- **Active exchange with users**

Through close contact and constructive exchange we can accomplish our goals together.

- **Acting responsibly**

We live the principles of social responsibility and obligation to support our suppliers. www.wiha.com/de/de/unternehmen/compliance/

- **Reliable partnership**

Our active and personal partner management with the specialist trade creates a trusting sense of togetherness and care for each other.

- **Social commitment and cooperation**

Long-term partnerships with local educational and social institutions establish our place in the middle of society.

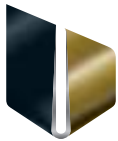

- **Committed to sustainability**

Products with a long service life, resource-saving processes, goals for minimizing waste, energy use, and emissions are part of our holistic sustainability strategy.

Wiha design awards

Ergonomics, highly prized by all.

best tools brand

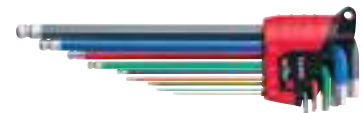

To us, positive feedback from people for whom we make our tools is the most rewarding confirmation of our work. All the same, we can also be more than a little proud when the high ergonomic quality of our products is confirmed at the "highest" level, as many of them have been distinguished with coveted design awards. In addition to this, our company and production quality were also honoured with awards. With this praise and confirmation from every direction, it's no wonder that Wiha are on the right track with ergonomic tool concepts and a future-oriented philosophy.

Wiha tools with AGR approval

The world's first tools awarded the seal of approval for efficient and health-preserving work.

Gepüft und empfohlen vom Forum: Gesunder Rücken - besser leben e.V. und dem Bundesverband deutscher Rückenschulen (BdR) e.V. Weitere Infos bei: AGR e.V., Stader Str. 6, 27432 Bremervörde, Tel. 04761/92 63 580, www.agr-ev.de

Ergonomic excellence! Wiha is the world's first hand tool manufacturer to receive the AGR seal for its Inomic® pliers and ergonomic handle design on screwdrivers. This distinction enjoys broad acceptance by medical professionals

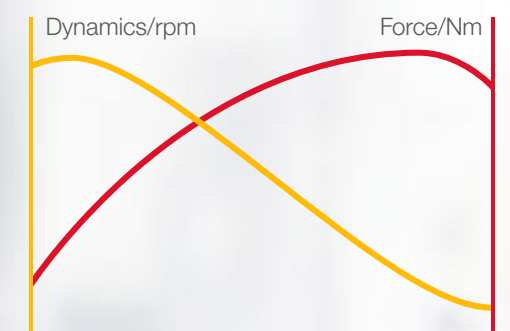

Ergonomic excellence - The Wiha screwdriver handle size concept and Wiha Inomic® pliers handle concept. When you are the first hand tool manufacturer in the world to have products distinguished with the renowned AGR quality seal, it's a sensation. Very few everyday objects are able to pass the stringent tests of the AGR, whose seal enjoys broad acceptance by medical professionals for very good reason.

For years, the AGR have been dedicated to promoting and researching the prevention of back pain and they offer recommendations on products which help to prevent musculoskeletal disorders and back pain.

Wiha have now been officially recognised for their ergonomic screwdriver handle size concept and Inomic® pliers handle concept. To us, this distinction is confirmation of our philosophy: To develop tools enabling the professional to not only work efficiently, but also in a health-preserving way. Wiha's screwdriver handle size concept features four handle sizes and lengths, each optimally suited to its respective fastening or work task to ensure healthy work. The angled "pistol handle" of the Wiha Inomic® pliers handle concept relieves the user's wrist while working.

Both handle concepts help users to reduce, or even fully prevent, discomfort in their musculoskeletal system and pain in their joints and muscles. The result? With Wiha, your work is easier, you don't get fatigued as quickly, you work more efficiently and you simply feel better at the end of the working day. As our campaign logo motto goes: "I feel Wiha!"

Wiha SoftFinish® handle sizes

Every Wiha handle optimally balances guidance, speed and torque for the respective fastening task.

Quick-turning - Motor skills are consistently taken into consideration.

Maximum power transmission, comfortable to use and without loss.

VDE-insulated tools from Wiha

To work safer, more efficiently and with less strain on the body.

Certified safety – from our own safety testing procedure according to IEC standards.

Voltage testing: All Wiha VDE-tools, which have special markings, are individually tested at 10,000 V AC and are approved for 1,000 V AC and 1,500 V DC.

Cold shock test: Cooling down to -25°C . The skinning material must retain its toughness, so that it doesn't break when subjected to shock and knocks.

Test of electrical skinning properties: 24 hours storage in water, then 3 minutes test at 10,000 V AC. There must neither be flashover nor disruptive discharge.

Test of the adhesion of the skinning material coating: 168 hours storage at 70°C , then test of adhesion at 500 N.

Pressure tests: Test at 20 N pressure load, 70°C temperature and 5,000 V AC test voltage. No disruptive discharge may occur.

Test of combustion behaviour: The tools are subjected to a flame for 10 seconds. The skinning material must then extinguish and not continue to burn.

As an internationally recognized institute, the VDE is responsible for the testing and certification of electrotechnical products. Wiha provides the professional with a broad range of VDE products, developed and continuously optimized specifically for electricians, which also provide application oriented solutions for everyday use.

The Wiha quality-management system according to ISO 9001:2015 ensures that only first-class products are manufactured – and that you can work with products of excellent quality. To ensure maximum safety for the user, the entire Wiha VDE range must undergo the most stringent inspections and individual tests. All Wiha VDE-tools hold multiple certifications: The VDE-GS mark stands for safety with regard to any risk, from electrical right up to radiological. Products labelled with a double triangle and a voltage range are suitable for work with live parts.

The international standard IEC 60900 defines the construction, safety as well as single, series, and random testing of insulated tools. But with Wiha you don't just work safer, but also healthier and more efficiently. Specially developed ergonomic geometries ensure comfortable handling that protects the body from strain. The result: easier work, less signs of fatigue, more efficiency.

The range. Designed for those who work with it.

The experiences of the user are taken into account right from the product development stage at Wiha tools. This ensures high-quality tool sets are designed for mechanics, electricians and electronics technicians which have been specifically compiled for their particular requirements and applications. Neatly stored and clearly organised in robust, compact tool bags, tools are ready at hand, ensuring work is completed easily and efficiently. Wiha tools prove to be very handy, essential companions stored in a Wiha tool case, where the limitations of conventional tool cases have been eliminated: thanks to its practical tool pockets and extra storage space for small parts, the Wiha tool case provides simple, strain-free transport of your tools, offering greater convenience to make your work easier in every respect.

"A case with all major Wiha tools and innovations - like Christmas for the electrician!"

Fastening / Jamming

- ⊖ Screwdriver SoftFinish® electric slimFix Slotted
3.5 mm x 100 mm (35446) / 4.0 mm x 100 mm (35390) /
5.5 mm x 125 mm (35391)

- ⊕ Screwdriver SoftFinish® electric slimFix Pozidriv
PZ1 x 80 mm (35395)

- ⊕ Screwdriver SoftFinish® electric slimFix PlusMinus/Pozidriv
SL/PZ2 x 100 mm (36330)

- ⊕ Screwdriver SoftFinish® electric slimFix TORX®
T10 x 100 mm (36536)

- ⊖ PicoFinish® electric fine screwdriver Slotted
1.5 mm x 50 mm (42374) / 2.5 mm x 65 mm (42376)

- ⊕ PicoFinish® electric fine screwdriver Phillips
PH00 x 50 mm (42379) / PH0 x 65 mm (42378)

Supplying / holding

- Needle nose pliers Professional electric with cutting edge
straight shape 200 mm, 8" (26727)

Stripping/ insulating / crimping

- ✂ Installation pliers TriCut Professional electric 170 mm, 7"
(38552)

Trimming / cutting

- ✂ Professional electric diagonal cutters with DynamicJoint®
140 mm, 5 1/2" (43326)

Surveying / marking / measuring / checking

- Electrician's Longlife® folding ruler, 2 m metric, 10
segments 15 mm (42068)

- Flashlight with LED, laser and UV light including 3 AAA
batteries 100 - 310 lm (41286)

- ⊖ Voltage tester SoftFinish® single-pole, 110-250 volts
Slotted transparent, with push-on clip 3.0 mm (34745)

- Measuring tape 5 m With belt clip (33251)

- Insulated extension 1/4" for nut driver inserts, insulated 75 mm (43059) / 150 mm (43060)
- slimVario® electric adapter for 1/4" nut driver (43139)
- Extension slimVario® electric for slimBits 6.0 mm (43292)
- Adapter TorqueVario-S electric for 1/4" nut driver (43128)
- Insulated nut driver insert 1/4" hexagon head 4.0 mm x 42 mm (43088) / 5.0 mm x 42 mm (43089) / 5.5 mm x 42 mm (43090) / 6.0 mm x 42 mm (43091) / 7.0 mm x 42 mm (43092) / 8.0 mm x 42 mm (43093) / 9.0 mm x 42 mm (43094) / 10.0 mm x 42 mm (43095)
- Insulated nut driver insert 1/4" internal hexagon 3.0 mm x 65 mm (43109) / 4.0 mm x 65 mm (43110) / 5.0 mm x 65 mm (43111) / 6.0 mm x 65 mm (43112) / 8.0 mm x 65 mm (43113)
- Torque key, electric 3/8" for nut drivers, adjustable torque limit (44163)
- Insulated square adapter 3/8" for 1/4" nut driver (44355)
- Insulated extension 3/8" for nut driver inserts, insulated 125 mm (43057) / 250 mm (43058)
- Insulated nut driver insert 3/8" hexagon head 11.0 mm x 45 mm (43067) / 12.0 mm x 45 mm (43068) / 13.0 mm x 45 mm (43069) / 14.0 mm x 45 mm (43070) / 16.0 mm x 45 mm (43071) / 17.0 mm x 45 mm (43072) / 18.0 mm x 45 mm (43073) / 19.0 mm x 47 mm (43074) / 21.0 mm x 47 mm (43075) / 22.0 mm x 47 mm (43076)
- Torque screwdriver with T-handle TorqueVario®-S T electric 5-14 Nm variably adjustable torque limit 5 - 14 (43177)
- Adapter T-handle TorqueVario®-S T electric for 1/4" nut driver (43634)
- Single, insulated open-end spanner 6.0 mm, 90 mm (43026) / 7.0 mm, 90 mm (43027) / 8.0 mm, 100 mm (43028) / 9.0 mm, 100 mm (43029) / 10.0 mm, 110 mm (43030) / 11.0 mm, 110 mm (43031) / 12.0 mm, 130 mm (43032) / 13.0 mm, 135 mm (43033) / 14.0 mm, 145 mm (43034) / 15.0 mm, 150 mm (43035) / 16.0 mm, 160 mm (43036) / 17.0 mm, 160 mm (43037) / 18.0 mm, 175 mm (43038) / 19.0 mm, 175 mm (43039) / 22.0 mm, 195 mm (43040)
- Adjustable spanner electric Adjustable between 0-30 mm 250 mm (43061)
- E-screwdriver handle speedE®
- Screwdriver with bit holder SoftFinish® electric slimVario for slimBits (41927)
- Socket wrench insert electric deep 3/8" Double hex 8 M8 x 80 mm (44146) / M10 x 80 mm (44147) / M12 x 80 mm (44148)

Stripping/ insulating / crimping

Cable stripping knife straight cutting edge for round cables in blister pack 200 mm (38798)

Surveying / marking / measuring / checking

Flashlight with LED, laser and UV light including 3 AAA batteries 100 - 310 lm (41286)

Voltage and continuity tester eMobility 12 – 1,000 V AC, CAT IV incl. 2x AAA batteries (44319)

Supplying / holding

Water pump pliers Professional electric with push button adjustment 250 mm (37450)

Combination pliers Professional electric with DynamicJoint® and OptiGrip with extra long cutting edge 200 mm, 8" (26711)

Long flat-nose pliers Professional electric 160 mm, 6 1/2" (26732)

Needle nose pliers Professional electric with cutting edge curved shape, approx. 40° 200 mm, 8" (26729)

Trimming / cutting

Professional electric diagonal cutters with DynamicJoint® 180 mm, 7" (43340)

Cable cutter Professional electric with switchable opening spring 210 mm, 8 1/4" (43662)

Insulating / crimping

Stripping pliers Professional electric 160 mm, 6 1/2" (26847)

Crimping pliers Professional electric Type 13 180 mm (35862)

VariousCharger for 18500 Li-ion batteries with USB and Europlug (41915)

Electro

Safety for professionals.

Quality and precision from one source. All devices convince by the highest measuring accuracy and the best quality not to mention the typical features functionality and durability of Wiha. The "Electrical" product group presents itself with a range of Wiha innovations, starting with the torch, the e-screwdrivers and the measuring device series: from voltage testers to multimeters, from rotary field indicators to ammeters. Wiha offers exactly the right tool for a wide range of applications.

The speedE® II is a helpful companion in everyday life because it is always at hand. Especially at the end of a long workday, it not only saves energy but also time, as I can work significantly faster with it. In addition, it has two power transmission levels* and due to the different colours of the bits, I immediately know which one to use without damaging the material."
Max Buhl

- 3x faster than manual fastening
- Protects against damage to materials and rework, 0.4 and 1.0 Nm
- Secure electrical fastening with 1,000 V protection
- Shadow-free illumination

Screwdrivers

We have the know-how at the tip of our fingers.

The ergonomic quality of a tool is never quite so apparent as when fastening and clamping. Under the motto “A grasp on turning” Wiha presents an innovative handle size concept which breaks new ground in terms of individual user comfort. Many commonly available screwdrivers are not designed to meet the needs of users. This results in disadvantages in guiding the tool as well as in transmitting force while fastening. In contrast, the- Wiha SoftFinish® concept works with four different handle sizes: Thus, each handle has a perfectly correlated ratio of guidance, speed and torque for any task. With SoftFinish, Wiha became the world's first and only hand tool manufacturer to have products honoured with the renowned AGR quality seal - a seal of approval accepted by medical professionals and officially recommended by doctors and therapists. Wiha screwdrivers featuring SoftFinish are available for dry applications, damp and oily applications and as VDE-certified, insulated screwdrivers for use when working on live parts.

**Wiha screwdrivers - for
handicraft, industry,
electrics and model-
making**

Torque tools

Controlled power for greater security.

The correct torque prevents damage to materials, eliminates the need for retouching and protects against warranty claims. This makes fully certified Wiha torque tools essential for mechanics, electricians and electronics technicians as they combine precision with security: with a release accuracy of $\pm 6\%$ for the pre-set scale value, Wiha torque screwdrivers satisfy standard precision requirements. Guaranteed individual item testing using the manufacturer's inspection process and individual item marking with an identification number attest to the high quality and manufacturing standard of the tools.

In most modern industrial and production units today, process and application safety is one of the top objectives. For example, the use of Wiha torque tools during the replacement of reversible plates can prevent follow-up work, prevent material damage, save time and ensure quality.

Multitools

Many talents in the minimum space.

Fewer tools mean less load, better handling and efficient work. The more a tool can do, the better: Wiha multitools are compact, versatile tools which save space and reduce overall weight, making them the perfect portable companion. In the Wiha LiftUp magazine bit holder, the most commonly used bits are neatly stored in the handle, ensuring they are always ready for use and easy to handle. The Wiha reversible blade system offers a variety of interchangeable blades, the lengths of which can be adjusted as required. The small, compact Wiha PocketStars contain the most commonly used L-keys - indispensable helpers for all equipment. The Wiha Stubby magazine combines six drive formats in one, allowing completely unrestricted access to all confined spaces thanks to its extremely short screwdriver handle.

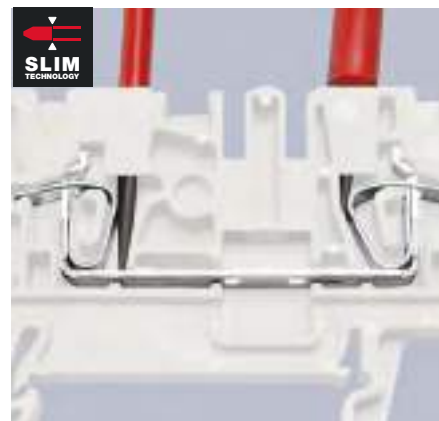

Multitools are portable all-rounders for when you are out on the road, no matter where you take off from.

INFOBOX:

L-keys

Difficult to access - easily solved.

Wiha L-keys are essential for all users who are faced with a screw fastening task in difficult work conditions. Wiha ball-end tools enable fastening at angles of up to 25° per side. The risk of an accident is reduced since the tool does not slip out of the screw. Screws made of steel and non-magnetic materials are securely held in any position with the Wiha MagicRing and MagicSpring. Perfect order and easy handling - the ErgoStar L-key holder provides both: Rotating a single L-key in the holder means that all other keys rotate at the same angle! Keys sitting next to each other no longer need to be disentangled. Instead, all keys are ready for removal with one turn - as fast and easy as never before.

**Exceptionally neat.
Exceptionally bright.**

- Illuminates under UV light
- Easy to find with UV light
- No more long searches
- Wiha torch as perfect supplement

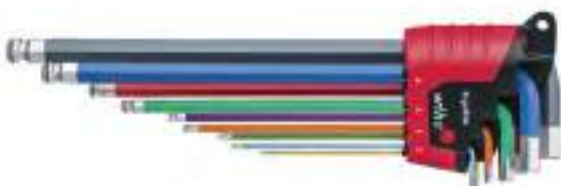

**INFOBOX:
ErgoStar**

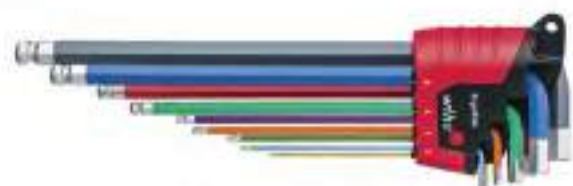

- Secure fit thanks to innovative clamping
- Quick selection - Easy removal
- Well organized storage
- Compact and space-saving

Bits

The indispensable three.

Which machine? Which application? Which bit? The revolutionary Wiha bit concept puts an end to any confusion and presents three bit types which can cover all areas of use. Only the screw shape is crucial for selecting the bit. The Y bit is ideal for fastening wood screws with an angle no greater than 90° between the thread and screw head. The T bit is used for metal screws at a 90° angle. If you need to fasten both screw types, then the TY bit is the right choice since this universal bit is suitable for all type of fastenings. A selection of different bit holders and bit boxes such as the BitBuddy® and XLSelector ensures optimum usage of bits.

**The right bit instantly
- Which bit do I need for
this job? Is this all too
familiar to you? We're
putting an end to that!
From now on, choosing
the correct bit is a matter
of seconds.**

INFOBOX:

Mechanical Tools

Tight fastening – easy opening.

Tightening and installation work requires many different profiles. Wiha precisely offers the required equipment and presents every user with a wide range of tools. The various nut driver and bit sets, as well as ring ratchet open-ended spanner sets, fastenings of all types can be easily tightened and opened. The extensive equipment range extends from a SoftFinish® screwdriver, various bits and bit holders, up to ratchet wrenches, extensions, and universal joints. The range is complemented by various ring ratchet open spanners. When it comes to flexibility and efficiency, the ratchet wrenches from Wiha are particularly distinguished by a variably selectable rotational direction as well as fine gearing with 72 gear teeth.

"With the ratchets and spanners from Wiha, I am simply well equipped for all screwing tasks, being for industrial assembly, heating installation or privately on my car."

Pliers

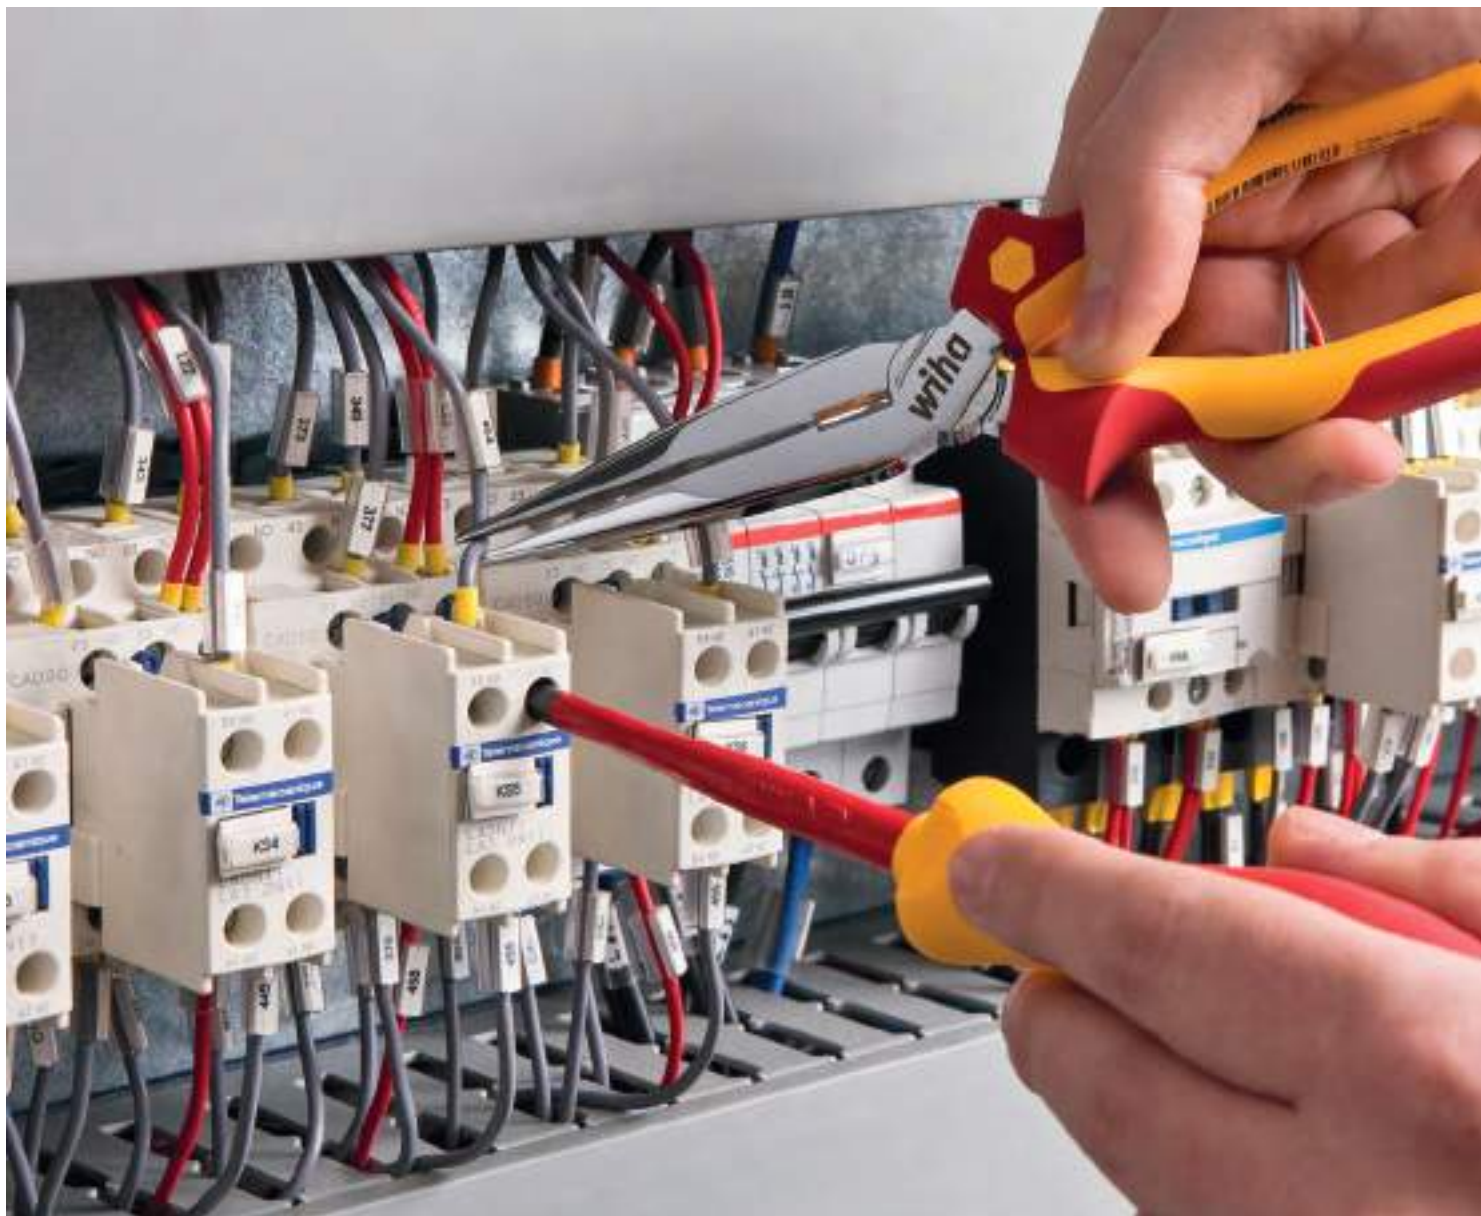

A cut above the rest for your health.

Wiha pliers combine high-quality materials with ergonomic comfort. Precise interaction between the joints and the exact workmanship of the blades and gripping surfaces ensure optimum functionality. Ergonomically designed and crafted to a high quality standard, they are comfortable to use, causing less body fatigue and thus making work more efficient. The "OptiGrip" triple-point support design for combination and high-leverage combination pliers ensure an optimum, secure hold when handled. The circlip pliers from the Classic Series with their MagicTips® precision tips made of high-performance steel provide added safety and stability. Wiha also supplies suitable tools for stripping, skinning and crimping.

**"With BiCut®, I always
have sufficient power
when cutting - and
without aching fingers."**

Timo Schweitzer

Striking and measuring tools. Optimum force transmission.

With optimally uniform weight distribution, the Wiha electric hammer strikes a perfect balance and is also eminently suitable for use in confined working environments. Removing nails and nail clamps as well as fixing cables and dowels into position without causing damage become extremely simple tasks. Wiha's scaled impact screwdriver blade ensures that the portable dowel racket makes a perfectly dimensioned dowel hole to the required depth anywhere at any time without making a mess, unlike power tools. Wiha measuring tools prove to be further dependable helpers during electrical installation work. The Wiha electrician's spirit level allows users to easily mark spaces for up to four flush boxes. This spirit level stands out due to its effortless dimension measurement and perfectly visible bubbles.

"The Wiha spirit level is a big hit! I can see the bubbles perfectly even when taking measurements above my head."

Ralf Kästle

Drives

	Triangular nut
	Hexagon head
	Square nut
	Internal hexagon
	Internal hexagon with drill hole (tamper-resistant)
	Tamper Resistant hex
	Countersink
	Combination drill bit
	Pentalobe PL
	Y-type
	Phillips PH (cross-recessed)
	Pozidriv PZ (Phillips)
	Internal square
	Round tip
	Slotted
	Slotted nut
	SIT
	Spanner
	Twist drill
	Sliding sleeve
	Torq-Set®
	TORX®
	TORX® with drill hole (tamper-resistant)
	TORX PLUS®
	Tri-Wing®
	Multitooth
	Square reaming blade
	Xeno SL/PZ

Drives

	Square nut
	Square
	G7 drive system
	Threaded connector
	SDS-Plus®
	Square nut

Ranges

	Hexagon head
	Internal square
	Triangular nut
	Square nut
	Oval-Crimp
	Square nut
	Mandrel pressing
	Double bit
	Internal hexagon
	Scissors cutter
	Phillips PH (cross-recessed)
	Pozidriv PZ (cross-recessed)
	Slotted
	Cutter with bevel
	Cutter without bevel
	Front cutting edge in stripping pliers
	Flat jaws
	Half round jaws
	Square peaks
	TORX®
	Xeno SL/PH
	Xeno SL/PZ

Electro

	Phase display		Single-pole phase test
	Photovoltaic-compatible		eMobility-compatible
	Testing current	RCD	FI-test
REL	Relative value measurement	Hz	Frekvens (Hz)
	Protection class		Greb diameter
	Safety circuit		Baggrundsbelysning
	Fuse		Højde over NN
	Voltage V AC min – max		Integreret lommelygte
	Voltage V DC min – max		Kapacitet (mF)
	Voltage range phase against phase		Opbevaringstemperatur
AAC	Current A AC		Laseryls
ADC	Current A DC		LCD-opløsning
	Current input	LCD	LCD-område
	Temperature measurement	LCD	LCD-nøjagtig
	Overvoltage protection		LCD-overløbsvisning
UV	UV light	LED	LED ELV-visning
	Contamination level		LED og akustisk signal
	Warning		Luftfugtighed
Ω	Resistance (Ω)		Maks. indgangsspænding pr. fase (Lx) mod neutral (N)
	Resistance (text field)		Maks. tolereret spænding
$>\Omega$	2 measurement ranges		Valg af måleområde
	Acoustic signal		Målefunktion
	Advert	CAT	Målekategori
	ATEX approval		Måleledninger
	Automatic switch on	min	Min. måling
AVG	AVG measurement		Nominel spænding
	Battery type		Optisk signal
	Battery status display		Slotted
	Battery consumption		TORX®
NCV	Remote voltage test		
	Operating temperature		
	Battery operation		
Hold	Data-HOLD		
	Diode test		
	Display		
	Rotation field indication		
	Continuity check		
	Continuity check		
	Permeability test		
	Inherent time		

TORX®, TORX PLUS®= Registered Trademarks of ACUMENT GlobalTechnologies B.V.
 ACR/AOT, Tri-Wing®, Torq-Set®= Registered Trademarks of Phillips Screw Company
 Pozidriv= Registered Trademark of European Industrial Services Ltd.

Torque

Pliers

	American Wire Gauge
	Max. cross-section / Stripping range
	Max. diameter
	Saw blade length
	Oval-Crimp
	Hexagonal crimping
	Square crimping
	Spring
	Scissors cutter
	Cutter with bevel
	Cutter without bevel
	Front cutting edge in stripping pliers
	Half round jaws
	Max. gripper pipe diameter
	Max. gripper width across flats
	Cutting force
	External retaining ring
	Internal retaining ring

Striking and measuring tools

	Width of segments
	Face diameter
	Colour
	Hammer head width

General symbols

	Packaging unit
	Total length
	Diameter
	Weight g
	SB version
	Total length inch

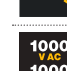

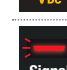

General information

	Recommended for electricians – non-insulated
	Expandable and compatible with EVF products
	VDE tested
	ESD tested
	Voltage test
	Cold impact test
	Test of electrical insulation properties
	Pressure test
	Test of the adhesion of the insulating material coating
	Testing the burning behavior
	Tested safety

Ranges

	Case strength
	Wheel-along case
	Case shape
	Automatic air compensation valve
	Recommended by doctors and therapists from the German Campaign for Healthier Backs
	DynamicJoint® - Innovative unique joint design
	Actuating tool for spring clips
	Heavy-duty diagonal cutters with DynamicJoint®
	OptiGrip - Three-point support
	Access to low-lying screws
	1/2 inch
	3/8 inch
	1/4 inch
	Suitable for eMobility

	LED light
	UV light
	Laser for positioning
	Hands free thanks to retaining clip
	Hands free thanks to magnet
	Recommended by doctors and therapists from the German Campaign for Healthier Backs
	3x faster than manual fastening
	Material protection function switchable 0.4 / 1.0 Nm
	Material protection function 0.4 Nm
	2x faster than manual fastening
	Work safely up to 1,000 V AC
	Electric drive
	Manual screw tightening
	Standard rechargeable battery
	Access to low-lying screws
	Expandable and compatible with EVF products
	Suitable for eMobility
	Limitation of the measuring range
	Limitation of the microampere range
	Automatic switch-off function
	Safety level
	Rotary field measurement (2 test probes)
	Rotary field measurement (3 test probes)

	For testing hybrid and electric vehicles
	Residual current circuit breaker function test
	Very loud signal tone
	Flexible cable
	Millivolt range
	Voltage check despite empty battery possible
	Signal tone that can be switched on and off
	Suitable for testing house photovoltaic systems
	Suitable for testing large-scale photovoltaic systems
	For connector types C and F
	Integrated torch function
	Signal tone

Screwdrivers

-  Access to low-lying screws
-  Recommended by doctors and therapists from the German Campaign for Healthier Backs

Torque

-  Precision +6%
-  Precision +10%
-  Access to low-lying screws
-  Material protection function
-  Actuating tool for spring clips

Multitools

-  Quick access
-  Compact and space-saving
-  Automatic opening
-  Double bits
-  Recommended by doctors and therapists from the German Campaign for Healthier Backs
-  slimTechnology access to low-lying screws
-  Actuating tool for spring clips
-  Variably adjustable blade length

L-keys

-  MagicRing® - Holding function without magnet
-  MagicSpring® - Holding function without magnet
-  Ball end can swivel up to 25°
-  TORX® ball end; can swivel up to 25°
-  Visible in UV light
-  Quick and easy access
-  Compact and space-saving
-  Two-component handle
-  Continuous blade
-  Side drive

Bits

-  Suitable for impact screwdrivers
-  Lifespan 120 times longer
-  Visible in UV light
-  Compact and space-saving
-  Automatic opening

Mechanical Tools

-  Incl. holder
-  Fine toothing
-  15° angled mouth position - Perfect for confined spaces
-  Right/left rotation
-  Reduces the risk of injury
-  Recommended by doctors and therapists from the German Campaign for Healthier Backs
-  1/2 inch
-  1/4 inch
-  3/8 inch

Striking and measuring tools.

-  Optimal weight distribution
-  Soft hammer end
-  Levers out nail clamps
-  Fully encased
-  Visible from just 10°
-  Recommended by doctors and therapists from the German Campaign for Healthier Backs
-  Optimal weight distribution
-  No recoil
-  Fiberglass-reinforced material
-  Hollow handle - Perfect balance
-  Impact protection
-  Optimum grip
-  Visible in UV light

Pliers

-  Stripping area
-  Cutting-to-length diameter
-  Length stop
-  DynamicJoint® - Innovative unique joint design
-  Heavy-duty diagonal cutters with DynamicJoint®
-  OptiGrip - Three-point support
-  Cutting-to-length, stripping, skinning
-  2 functions 1 tool
-  2 power stages
-  Rotatable by 360°
-  Automatic adjustment
-  Rust protection
-  Work safely up to 1,000 V AC
-  Holding function
-  Square crimping
-  Hex crimping
