SPOT PRIMAL

**LIGHTING THAT ADAPTS
TO YOU**

WHY CHOOSE DOWNLIGHT SPOT PRIMAL?

Discover the new standard in directional lighting: **SPOT PRIMAL** by OSRAM

The **SPOT PRIMAL** series is a combination of design and advanced technology. OSRAM products use thicker, double-insulated wires for greater safety in use. Each luminaire with min. 3 light points offers power distribution – you can turn on only a selected part of the lighting. The beam and heads are fully adjustable, giving you full control over the light. With CE, RoHS, LVD or GWT (Glow Wire Test) certificates, **SPOT PRIMAL** will work well in both homes and commercial interiors. The included suction cup makes it easy to change the bulb without tools.

KEY FEATURES & BENEFITS

- Rotating beam + rotatable light points**

Two-way adjustment – the beam rotates and you can set each light point independently. Ideal for zoned illumination of spaces.
- 5
TYPES

5 luminaire variants – different number of light points

A small interior or a large living room? Spot Primal has a version for every room. Create light lines or illuminate only selected zones.
- TWO
COLORS

A design that impresses

Matt finish, uniform color of all elements and a choice between black and white.
- ROBUST
DESIGN

Built for years

Each luminaire uses 0.75 mm² cables and meets strict CE, RoHS, LVD, GWT (Glow Wire Test) and REACH standards. You can rest assured.
- EASY
BULB
REPLACE

Accessory included – suction cup for bulb replacement

Changing a light bulb? Fast and safe – thanks to the suction cup included in each package. No scratches and no effort.
- DOUBLE
WIRING

Independent control of light sources

You're in control. Thanks to the double wiring, you can only switch on part of the lights – exactly the way you want. (in luminaires with min. 3 sources).
- 5
YEAR
GUARANTEE

Extended warranty

Over 100 years of OSRAM brand experience. Assurance of quality and safety.

DIRECT THE LIGHT WHERE YOU WANT IT

ROTATING BAR

Additional rotation for perfect light posing

SOLID HEAD BAR AND BASE
